SUPPLEMENTAL DATA REQUESTS

COST OF SERVICE

UGI Utilities, Inc. - Gas Division
Docket No. R-2024-3052716
UGI Gas 2025 Base Rate Case
Responses to Standard Data Requests - Cost of Service
Delivered on January 27, 2025

SDR-COS-1

Request:

Please explain the Company's policy with regard to when customer advances and contributions in aid of construction must be made.

Response:

An advance or contribution in aid of construction is required from an Extension Applicant or Customer when insufficient revenues will be derived from the Extension Applicant or Customer to warrant the investment by UGI Gas. Please see UGI Gas Exhibit F, Section 5, Extension Regulation, of the UGI Gas Tariff.

Prepared by or under the supervision of: Christopher R. Brown

Delivered on January 27, 2025

SDR-COS-2

Request:

Please provide a detailed explanation describing how contributions in aid of construction and customer advances are reflected in the Company's cost of service study.

Response:

Contributions in aid of construction, including amounts collected to cover the Company's tax obligations on certain project investments, are reflected as a deduction to rate base and included in Exhibit D. UGI Gas does not have customer advances and no claim is made for customer advances.

SDR-COS-3

Request:

Please provide a breakdown of contributions in aid of construction by customer class and plant account number for the most recent year available.

Response:

Please reference Attachment SDR-COS-3.

In addition to the CIACs listed on this attachment, \$176,860 in payments were received from developers on RNG projects in Fiscal 2024 and recorded to a regulatory liability.

These payments relate to the tax obligation that the Company incurs on the CIAC received in a prior fiscal year and applied to reduce the project balance on the Company's books (and within its rate base) to zero. The additional payments received in Fiscal 2024 are amortized into income over the tax life of the project.

UGI Utilities, Inc. - Gas Division
Docket No. R-2024-3052716
UGI Gas 2025 Base Rate Case
Responses to Standard Data Requests - Cost of Service
Delivered on January 27, 2025

SDR-COS-14

Request:

Please provide a summary identifying the salient features of each of the following. Salient features include contract party, effective term and applicable contract quantities (daily, annual, seasonal, etc.).

- a. All firm transportation agreements by type greater than one month in length. Indicate whether the capacity is available at the Company's citygate to meet design day requirements or is upstream capacity. Identify the downstream pipeline for each upstream arrangement.
- b. All firm storage, gathering and exchange agreements. Indicate if each agreement provides design day capacity at the citygate or requires separate transportation (identify) service to effectuate delivery. Include on-system storage and peak shaving facilities used by the Company and identify all ratcheting provisions applicable to the Company's contractual and on-system storage arrangements.

Response:

Please see Attachments SDR-COS-14(a) and SDR-COS-14(b) included in print and on the USB flash drive. The contracts are reflected as of 11/1/2024.

Prepared by or under the supervision of: Tracy A. Hazenstab

Docket No. R-2024-3052716
UGI Gas 2025 Base Rate Case
Responses to Standard Data Requests - Cost of Service
Delivered on January 27, 2025

SDR-COS-15

Request:

For the most recent annual period available, please identify the applicable monthly volumes and revenues under each rate schedule which were:

- a. Sold under a negotiated or market-based rate
- b. Transported under a negotiated or market based rate
- c. Transported at full margin transportation rates

Response:

Please see Attachment SDR-COS-15.

Request:

Please provide a listing of all securities issuances for the Company and, if applicable, its parent projected for the next two years. The response should identify for each projected issuance the date, dollar amount, type of security, and effective cost rate.

Response:

UGI Utilities, Inc. does not have publicly traded stock. UGI Corp ("the Parent"), the parent company of UGI Utilities, Inc., does have publicly traded stock.

On May 25, 2021, the Parent issued 2.2 million "Equity Units" with a total notional value of \$220 million. The Equity Units were equity-linked securities and not Common Stock. Each Equity Unit was a mandatory convertible, hybrid security that combined a "Forward Contract" and a 10% undivided interest in one share "Convertible Preferred Stock" of the Parent. The Equity Units included a requirement to remarket the Convertible Preferred Stock approximately three years after issuance (May 2024).

Pursuant to the terms of the Equity Units, in May 2024, the Parent announced the unsuccessful final remarketing of its Convertible Preferred Stock. As a result, each holder of an Equity Unit received 2.2973 shares of Parent Common Stock, without par value, with cash paid in lieu of any fractional shares.

In the event of a successful remarketing of the Convertible Preferred Stock, the Parent would still have provided such Common Stock to Equity Unit holders due to the terms of the Forward Contract.

During the third quarter of Fiscal 2024, the Parent (i) made the final payment to settle the Forward Contract in full; (ii) canceled the Convertible Preferred Stock; and (iii) in a non-cash transaction, converted the Equity Units into 5,054,030 shares of Parent Common Stock and issued the shares to the holders of the Equity Units under the Forward Contract.

As noted above, the Equity Units are not common stock, although they contain terms that eventually convert a portion into Parent Common Stock.

All terms and requirements under the Equity Units are satisfied. The Equity Units are fully settled as of June 2024.

Request:

Please identify all of the Company's and, if applicable, its parent's publicly underwritten common stock issuances written in the last five years. Identify which such issuances were related to mergers or acquisitions, and which were undertaken to fund facility investments in utility plant and equipment.

Response:

The Company has not issued stock in the last five years.

The Parent (UGI Corporation) has issued stock related to the below transaction in the last five years.

On May 25, 2021, the Parent issued 2.2 million "Equity Units" with a total notional value of \$220 million. The Equity Units were equity-linked securities and not Common Stock. Each Equity Unit was a mandatory convertible, hybrid security that combined a "Forward Contract" and a 10% undivided interest in one share "Convertible Preferred Stock" of the Parent. The Equity Units included a requirement to remarket the Convertible Preferred Stock approximately three years after issuance (May 2024).

Pursuant to the terms of the Equity Units, in May 2024, the Parent announced the unsuccessful final remarketing of its Convertible Preferred Stock. As a result, each holder of an Equity Unit received 2.2973 shares of Parent Common Stock, without par value, with cash paid in lieu of any fractional shares.

In the event of a successful remarketing of the Convertible Preferred Stock, the Parent would still have provided such Common Stock to Equity Unit holders due to the terms of the Forward Contract.

During the third quarter of Fiscal 2024, the Parent (i) made the final payment to settle the Forward Contract in full; (ii) canceled the Convertible Preferred Stock; and (iii) in a non-cash transaction, converted the Equity Units into 5,054,030 shares of Parent Common Stock and issued the shares to the holders of the Equity Units under the Forward Contract.

As noted above, the Equity Units are not common stock, although they contain terms that eventually convert a portion into Parent Common Stock.

SDR-RR-5

Request:

If past weather normalized sales or sales trends are used in models or otherwise relied on in reaching sales projections, please provide actual and normalized throughput by rate schedule as of December 31 for the last three years. Where applicable, separately identify sales and transportation throughput.

Response:

Please see the Direct Testimony of Sherry A. Epler, UGI Gas Statement No. 8, as well as the responses to SDR-RR-9, SDR-RR-10, and SDR-RR-11 for a description of the UGI Gas model used for forecasting sales for the Residential Heating ("RH") and Commercial Heating ("CH") rate groups, including supporting data.

Use per customer values for rate classes and class subgroups were established pursuant to the following:

The projected RH use per customer was established on a combined Rate R/RT - Heating total basis per the UGI Gas model detailed in Attachment SDR-RR-11(a). Weather normalized sales for Rate RT - Heating customers were then utilized to derive the separate Rate RT - Heating and Rate R - Heating use per customer values from the combined Rate R/RT - Heating value. Please see Attachment SDR-RR-5(a) for the actual and normalized sales utilized for Rate RT - Heating. Please see UGI Gas Exhibit SAE-7(a) for the derivation of the Rate R - Heating use per customer value.

Actual sales were normalized for combined Residential Non-Heating – Rate R and Rate RT in order to project combined use per customer in total. Please see Attachment SDR-RR-5(b) for the actual and normalized sales utilized for the combined Rate R/RT-Non-Heating value. Weather normalized sales for Non-Heating Rate RT were then utilized to derive the separate Rate RT and Rate R – Non-Heating customer values from the combined Rate R/RT – Non-Heating value. Please see Attachment SDR-RR-5(c) for the actual and normalized sales utilized for Rate RT- Non-Heating. Please see UGI Gas Exhibit SAE-7(a) for the derivation of the Rate R – Non-Heating use per customer value.

Please see UGI Gas Exhibit SAE-7(a) for the derivation of the total Rate RT (Heating and Non-Heating) use per customer value.

SDR-RR-5 (Continued)

The projected CH use per customer was established on a combined Rate N/NT/DS - Heating total basis per the UGI Gas model detailed in Attachment SDR-RR-11(b). Weather normalized sales for Rate NT – Commercial Heating customers and budgeted sales for Rate DS – Commercial Heating were then utilized to derive the separate Rate NT – Commercial Heating, Rate N – Commercial Heating and Rate DS – Commercial Heating use per customer values from the combined Rate N/NT/DS – Commercial Heating value. Please see Attachment SDR-RR-5(d) for the actual and normalized sales utilized for Rate NT – Commercial Heating and Attachment SDR-RR-5(e) for the budget sales for Rate DS – Commercial Heating. Please see UGI Gas Exhibit SAE-7(a) for the derivation of the Rate N – Commercial Heating use per customer value.

Actual sales were normalized for combined Rate N – Commercial Non-Heating, Rate NT - Commercial Non-Heating and Rate DS – Commercial Non-Heating in order to project combined Rate N/NT/DS – Commercial Non-Heating use per customer in total. Please see Attachment SDR-RR-5(f) for the actual and normalized sales utilized for the combined Rate Commercial N/NT/DS-Non-Heating value. Weather normalized sales for Rate NT – Commercial Non-Heating and budgeted sales for Rate DS – Commercial Non-Heating were then utilized to derive the separate Rate NT – Commercial Non-Heating, Rate N – Commercial Non-Heating and Rate DS – Commercial Non-Heating use per customer values from the combined Rate N/NT/DS – Commercial Non-Heating value. Please see Attachment SDR-RR-5(g) for the actual and normalized sales utilized for Rate NT – Commercial Non-Heating and Attachment SDR-RR-5(h) for the budget sales for Rate DS - Commercial Non-Heating. Please see UGI Gas Exhibit SAE-7(a) for the derivation of the Rate N – Commercial Non-Heating use per customer value.

Please see UGI Gas Exhibit SAE-7(a) for the derivation of the total Rate NT (Heating and Non-Heating) use per customer value.

Actual sales were normalized for combined Rate N – Industrial, Rate NT - Industrial and Rate DS – Industrial in order to project combined Rate N/NT/DS – Industrial use per customer in total. Please see Attachment SDR-RR-5(i) for the actual and normalized sales utilized for the combined Rate N/NT/DS - Industrial value. Weather normalized sales for Rate NT – Industrial and budgeted sales for Rate DS – Industrial were then utilized to derive the separate Rate NT – Industrial, Rate N – Industrial and Rate DS – Industrial use per customer values from the combined Rate N/NT/DS – Industrial value. Please see Attachment SDR-RR-5(j) for the actual and normalized sales utilized for Rate NT – Industrial and Attachment SDR-RR-5(k) for the budget sales for Rate DS - Industrial. Please see UGI Gas Exhibit SAE-7(a) For the derivation of the Rate N – Industrial use per customer value.

Responses to Standard Data Requests - Revenue Requirement
Delivered on January 27, 2025

SDR-RR-6

Request:

If past weather normalized sales or sales trends are used in models or otherwise relied on in reaching sales projections, please provide actual and normalized throughput by month by rate schedule from the beginning of the historic test year and the future test year through the most recent month available and update as additional data become available. Separately identify sales and transportation throughput and provide the work papers which develop normalized sales.

Response:

Please see the response to SDR-RR-5.

Prepared by or under the supervision of: Sherry A. Epler

SDR-RR-9

Request:

Identify the historical data source(s) for each dependent and independent variable utilized to develop the econometric models of gas demands for each forecasted customer group.

Response:

The variables noted below were utilized for the development of normalized and annualized usage for the Residential Heating ("RH") and Commercial Heating ("CH") customer groups, except as noted. Budgeting representing normalized and annualized usage was performed on an individual customer basis for Rate DS, Rate LFD, Rate XD and Rate IS by UGI Marketing personnel, with the exception of any new customer additions or losses for Rates LFD, XD and IS. The RH customer group is comprised of heating customers within Rates R and RT and the CH customer group is comprised of heating customers within Rates N, NT and DS.

- (1) Monthly Sales – Monthly sales is a dependent variable in the econometric model. These sales are expressed in the form of use per customer which are developed from reported monthly sales and customer counts.
- (2) Monthly Customers – Customers is an independent variable. Reported end of month customer counts are used in conjunction with monthly sales to develop use per customer.
- (3) Monthly Heating Degree Days – Actual monthly Heating Degree Days (“HDD”) is an independent variable. HDD are calculated on a 65 degree Fahrenheit temperature base using the daily average temperature of a Gas Day and then summed by month to arrive at the Monthly Heating Degree Days. Each Gas Day is based upon the North American Standards Board definition of a Gas Day which encompasses the 24 hour period from 10:00 a.m. to 10:00 a.m. The recording locations for temperature weather data used to calculate HDD for UGI Gas are the NOAA recording stations at: Wilkes-Barre/Scranton, PA (KAVP); Allentown, PA (KABE); Reading, PA (KRDG); Lancaster, PA (KLNS); Harrisburg, PA (KMDT), Altoona, PA (KAOO), Clearfield, PA (KFIG), and Bradford, PA (KBFD). Weighting of stations is based on historical throughput within geographic delivery regions to produce a composite HDD combined value.

SDR-RR-9 (Continued)

- (4) Lagged Monthly Heating Degree Days – Monthly Heating Degree Days lagged by one month.
- (5) Weighted Time Trend – Weighted Time Trend is an independent variable. This variable captures trends in customer usage which include both known and unknown factors such as structural conservation related to more efficient building envelop construction, regular cycle appliance change-outs to more efficient units, upgrades to more efficient units, installation of energy conservation measures such as set-back thermostats and manual consumer behavior changes such as lowering thermostat settings in response to higher energy prices. This numeric variable represents the passage of time by assigning each monthly time period a sequential numeric value. This variable is weighted by the HDD variable in order to capture trend impacts during associated heating use periods. This variable is used for the RH group forecasting (Rates R and RT) but is excluded for the CH group forecasting (including Rates N, NT and DS).

SDR-RR-10

Request:

Identify the source(s) and supporting documentation for the FTY value of each independent variable which required forecasting in the Company's gas demand models.

Response:

- (1) Monthly Customers – Monthly customer counts utilized are produced by a Marketing department forecast through the Fully Projected Future Test Year. Attachment SDR-RR-11 provides the supporting data.
- (2) Monthly Heating Degree Days – Normal Monthly Heating Degree Days (“HDD”) are utilized for forecasting. UGI Gas utilizes a 15 year Normal HDD which is based on officially recorded daily temperatures (on a Gas Day basis) over the period January 1, 2005 to December 31, 2019. The Normal HDD are recalculated every 5 years with the most recent 15 years of HDD data. The actual system HDD is calculated using temperature data as identified in SDR-RR-9. Please see the Direct Testimony of Sherry A. Epler, UGI Gas Statement No. 8, UGI Gas Exhibit SAE-2 for HDD values.
- (3) Lagged Monthly Heating Degree Days – Lagged Monthly Heating Degree Days are equal to the Monthly Heating Degree Days and are representative of the prior month’s Heating Degree Days.
- (4) Weighted Time Trend – The Weighted Time Trend variable is sequenced a unit value of 1 each month through the regression period and forecast based on a continuation of that same sequence for each forecast month (e.g., 100, 101, 102, etc.). A weighting of the time trend is accomplished by multiplying the trend value by the applicable monthly HDD value and dividing that product by a value of 10,000 in order to normalize to a smaller sequential value for display. This variable is used for the RH group forecasting (Rates R and RT) but is excluded for the CH group forecasting (including Rates N, NT and DS).

Request:

Please provide in hard copy and on a computer diskette in Lotus 1-2-3, QuattroPro or other spreadsheet format, the dependent and independent variable databases relied upon to produce the Company's gas demand models. SDR-RR-20

Request:

Please state whether the future test year budgeted labor includes any increases or decreases in the number of employees during the future test year. If increases have been budgeted, please state whether the future test year includes budgeted positions which have not been filled.

Response:

During the historic test year ("HTY"), UGI Gas completed a review of labor to determine the required base positions needed for the ongoing operations of the business, as well as additional positions needed in the future. The future test year ("FTY") budgeted labor as of September 30, 2025 includes 26 additional gas operations positions and 1 human resource position allocated at 90% to gas operations. The fully projected future test year ("FPFTY") labor budget as of September 30, 2026 includes 11 additional gas operations positions.

The HR position has been filled. The additional gas operations positions are expected to be filled throughout the course of Fiscal 2025 and Fiscal 2026.

Request:

Please explain how the Company has treated routine or normal position vacancies which occur as a result of terminations or retirements in its budgeted labor projections.

Response:

During the budgeting process, all currently open positions are reviewed to determine if they should be excluded or carried forward into the upcoming budget year. In addition to reviewing individual open positions, vacancy rates are also reviewed across the various functional groups throughout the organization. An appropriate overall vacancy rate is then built into the labor budget, thereby reducing total budgeted headcounts and associated expenses to take these vacancies into account. This is reflected in both the Future Test Year (FTY) and the Fully Projected Future Test Year (FPFTY) labor projections.

Benefit Program Effective January 1, 2025

Employee Medical Plan

All employees and their dependents have the option to participate in a health care program that provides three options: an Independence Blue Cross Preferred Provider Option Plan, an Independence Blue Cross Preferred Provider Basic Plan, and an Independence Blue Cross High Deductible Plan with a Health Savings Account. Employees who elect medical coverage receive the Prescription Drug coverage at no additional cost. Employees share in the cost of medical plans.

A brief summary of each is listed below:

	IBX PPO Preferred	IBX PPO Basic	IBX HDHP
Annual Deductible	\$600 Individual \$1,500 Family	\$1,500 Individual \$3,750 Family	\$2,500 Individual \$3,300 employee and Spouse or Employee and Child(ren) \$5,000 Family
Coinsurance after deductible	15%	30%	10%
UGI HSA Annual Funding	N/A	N/A	\$1,000 Individual \$2,000 Family
Out of Pocket Maximum	\$3,500 Individual \$8,750 Family	\$4,500 individual \$9,000 family	\$4,000 Individual \$8,000 Family
Office Visit / Specialist (incl Telehealth) Copay	\$25 / \$40	\$30 / \$40	10% after deductible
Pharmacy Deductible (through CVS)	\$150 Individual \$350 Family	\$150 Individual \$350 Family	Subject to medical deductible

A summary of prescription copays is below:

	30-Day Supply at Participating Pharmacy	90-Day Supply at CVS	Mail Order 90-Day Supply
Generic	\$10 copay	\$20 copay	\$20 copay
Brand Name Formulary	\$20 copay	\$40 copay	\$40 copay
Brand Name Non-Formulary	\$35 copay	\$70 copay	\$70 copay

Dental Plan

All employees have access to the following dental plans:

Benefit – In network	Basic Dental	Buy Up Dental
Annual Deductible:	\$50 Individual/\$150 Family	No deductible
Diagnostic and Preventive, to include cleanings, fluoride treatments, sealants, x- rays	100%; no deductible	100%; no deductible
Basic Restorative, oral surgery, endodontics	50% co-insurance after deductible	90%
Major Restorative, Prosthodontics	50% co-insurance after deductible	60%
Repairs of crowns, inlays, onlays, bridges, dentures, endodontics, general anesthesia, and periodontal	50% co-insurance after deductible	90%
Annual Maximum for covered services	\$1,000	\$2,500
Orthodontics	50% co-insurance with \$1,000 lifetime	60% co-insurance with \$2,500 lifetime

The employee only premium for the Basic Dental coverage is paid for by UGI.
UGI's contribution for the Buy-Up plan is slightly higher than the cost for the Basic Plan.

Vision Plans

All employees have access to the following vision plans:

Benefit	Vision Base	Vision Buy Up
Exam for glasses	100%	100%
Clear Standard/Single Vision/Bifocal/Blended Bifocal/Trifocal	\$20 copay	\$20 copay
Custom Progressive Lenses	\$95 - \$175	\$95 - \$175
Standard Progressive Lenses	100%	100%
Elective contact lenses in lieu of glasses	Up to \$140	Up to \$150

Both Vision plans are 100% employee paid.

Flexible Spending Accounts

All employees are eligible to participate in Health Care or Dependent Day Care Spending Accounts. The annual maximum election for a Health Care Account is \$3,200 and the minimum is \$104. The annual maximum election for the Dependent Day Care is \$5,000 (\$2,500 if married and filing separate tax returns) and the minimum is \$104. Employees who enroll in the Blue Cross High Deductible Health Plan are eligible for a Limited Purpose Health Care spending account per IRS regulations.

Group Life Insurance

All employees receive company paid basic life in the amount of one times their annual salary (including certain bonuses) rounded to the next highest \$1,000. Part-time employees receive \$10,000.

Employees may elect additional employee voluntary life insurance of 1, 2, 3, 4, or 5 times annual salary rounded to the nearest \$1,000. This coverage is 100% employee paid. Employee may also elect voluntary life insurance for a spouse in amounts from \$10,000 to \$100,000 in increments of \$10,000. Child(ren) life insurance is also available in the amount of \$10,000. Both spouse and child(ren) life insurance are 100% employee paid.

Accidental Death & Dismemberment (AD&D) and Business Travel Accident (BTA) Insurance

All employees are covered under AD&D insurance 24 hours per day, 365 days per year. The maximum benefit is one times annual salary to a maximum of \$2 million. Employee may elect voluntary AD&D at 1, 2, 3, 4, or 5 times salary to a maximum of \$2 million. Spouse only equals 50% of employee coverage. Child(ren), only equals 15% of employee coverage; Spouse and Child(ren) equals 40% for Spouse and 10% for Child(ren) of employee coverage.

All voluntary AD&D coverage is paid 100% by employees.

All employees are covered by Business Travel Accident with a maximum benefit of 4 times annual salary to a maximum of \$2 million. Part-time employees are covered up to \$40,000.

Teladoc

Telemedicine available 7 days a week, 24 hours a day from a mobile device or computer. Any needed prescriptions are sent to the pharmacy of your choice. Medical and mental health services are available for no copay for those enrolled in one of the PPO plans and nominal copays for those employees who have elected HDHP plan. Must be enrolled in one of UGI medical plans.

- **Diabetes and Hypertension Management** – Both are covered through Teledoc at no additional cost to the employee if enrolled in one of UGI medical plans.

Sleep and Anxiety Program

At no additional cost to the employee if they are enrolled in one of UGI medical plans, employees have access to tools to help them manage their sleep and anxiety.

Additional Voluntary Benefits – Employee paid:

- **Critical Illness** provides a lump sum payment upon diagnosis of Cancer, Heart Attack, Stroke or Major Organ Transplant. Coverage available: Employee \$5,000, \$10,000 or \$20,000; Spouse \$5,000, \$10,000 or \$20,000; Children \$5,000 or \$10,000.
- **Hospital Indemnity** provides a daily benefit for a covered stay, in a hospital, critical care unit, or rehabilitation facility which can be used to help pay for expenses not paid for my medical plan, lost wages, childcare, travel, or other regular household expenses. This is a fixed indemnity policy, not health insurance.
- **Accident Insurance** provides cash for covered injuries that occur on and off the job. Benefits include emergency room visits, fractures and dislocation, ambulance transportation, intensive care, surgeries, and more.
- **Identify Theft Protection** provides two different levels of coverage: credit monitoring/digital footprint/locking TransUnion credit or \$2M in ransomware expense reimbursement/active threat detection, and safety VPN.
- **Pet Insurance** coverage will reimburse eligible veterinary expenses relating to accidents, illnesses, and injuries for pets, like dogs and cats. There are two levels of coverage, one provides pets with wellness coverage.
- **Whole Life Insurance with Long-Term Care** provides whole life insurance that an employee can purchase now and take with them when they leave the company at the same rate, as long as they continue to pay. Also provides employees a way to build cash value at a guaranteed rate to be used later in life for long-term care.

Short Term Disability

The Company provides a self-insured pay continuation illness plan for all employees. The percentage of pay continued and the number of weeks at 100% and 50% are based on years of service. Short term disability is available for a maximum of 6 months of disability.

Long Term Disability

Employees who exhaust short term disability benefits are eligible to apply for long term disability which is an insured program. Employees who qualify receive 60% of base monthly income offset by other disability income such as Social Security. Maximum benefit is \$20,000 per month. Minimum benefit is the greater of \$100 or 10% of the gross disability payment per month.

Savings Plan – 401(k)

All employees are eligible to participate in the deferred savings plan which is a tax qualified 401(k) program. The Plan offers pre-tax, after-tax and Roth contributions up to the IRS limit. For 2024 the total contribution for pre-tax, after-tax, Roth and company match is \$69,000. If over 50 years of age, the catch-up contribution is \$7,500 for a total maximum contribution of \$76,500. The Company match is before, after or on Roth contributions at 50% of the first 3% and 25% of the next 3% of salary deferred for those employees who participate in the defined benefit pension plan. Participants are immediately vested in the Company match.

Employees hired on or after January 1, 2009 are eligible for an enhanced company match of 100% of 6% effective January 1, 2019 because they are not eligible for the defined benefit pension plan. Vesting is immediate.

Educational Assistance

Full-time employees with a summary performance rating of “Met Objectives” or higher on their most recent annual review may be eligible to participate in the Company’s tuition reimbursement program for courses offered by approved educational institutions. To be eligible for reimbursement studies selected must be related to some phase of the employee’s current job, or be a direct benefit to the Company’s operation, or be part of a required course for a degree (associates, bachelors or masters) or certificate related to the Company’s operation. PhD programs are excluded.

The Company will reimburse 80% of tuition costs only, excluding the cost of books, supplies and other associated fees at qualified educational institutions. The maximum reimbursement per calendar year is limited to \$6,300 for undergraduate courses and \$10,000 for graduate level courses. In order to receive reimbursement, the employee must provide evidence of satisfactory completion of the course. For courses with letter grades, “satisfactory completion” is defined as follows:

- a grade of “C” or better for undergraduate classes
- a grade of “B” or better for graduate level classes

UGI financially supports employees to retain certification and/or licensure that is required in their current role; or, to obtain certification/licensure which will increase their knowledge and skills as it relates to their current work responsibilities. Oftentimes a course provides valuable assistance in preparing for a certification/licensure exam. This policy enables financial support for reimbursement of approved courses that prepare those who will take an exam to have a greater opportunity for success. This policy also provides financial support for the renewal/maintenance fees for job-related certification/licensure.

This policy applies to all full-time employees and part-time employees 20 hours or more weekly, with “Met Objectives” or higher on their most recent annual review. For employees who have not yet received formal reviews, supervisor approval of application signifies confirmation of “Met Objectives” to date. The professional certification/licensure must be considered by the Company to be directly related to the employee’s current job and must be of direct benefit to the Company’s operation unless approved by the departmental Vice President and Human Resources.

Paid Time Off

The Company provides all employees with 10 paid holidays and 3 personal days per calendar year. Employees are provided vacation allowances based on years of service ranging from 3 weeks during the first calendar year of employment on a prorated basis up to 6 weeks after 35 years of service.

Severance Program

Exempt employees, in levels M2 – M6 and P3 – P5 are eligible for a severance allowance of two weeks of compensation for each year of service with a minimum of two months of compensation and a maximum of 12 months of compensation. Severed employees will also receive a lump sum payment equal to the COBRA cost of continued medical and dental coverage for the period of severance less the active employee contribution amount.

Exempt employees, in levels M1, P1 - P2 and non-bargaining non-exempt employees, are eligible for a severance allowance of one week of compensation for each year of service with a minimum of two weeks of compensation and a maximum of 12 months of compensation.

Severed employees will also receive a lump sum payment equal to the COBRA cost of continued medical and dental coverage for the period of severance less the active employee contribution amount.

Post-Retirement Benefits

Retirement Plan – UGI Utilities, Inc. Employees Hired Prior to 1/1/2009

The Plan is a noncontributory defined benefit plan covering substantially all employees of UGI Utilities, Inc. hired prior to January 1, 2009. Effective January 1, 2009, the Plan was closed to new hires, rehires or transfers occurring on or after that date.

Substantially all employees of the UGI Employers hired prior to January 1, 2009 who complete five years of vesting service, as defined, or who reach normal retirement age, as defined, while in the employ of the UGI Employers, are entitled to benefits upon reaching normal retirement age, generally age 65.

The annual pension benefits shall generally be the greatest of:

- 1.9% of final average earnings, as defined, times years of credited service, as defined, (which amount cannot exceed 60% of the average monthly earnings for the highest consecutive 12-month period during the 120 consecutive month period prior to the date of retirement or termination), less (b) 1% of the primary Social Security benefit, as defined, times the years of credited service at age 65 (maximum of 35 years) and in the case of early retirement, multiplied further by the ratio of actual credited service to projected credited service at normal retirement date; or
- 25% of earnings during the last 12 months prior to retirement multiplied by the ratio (not to exceed 1.0) of years of projected credited service to normal retirement date to 15, and in the case of early retirement, multiplied further by the ratio (not to exceed 1.0) of years of credited service earned to the projected years of credited service at normal retirement date.

The Plan permits early retirement benefits at a reduced level at age 55 and completion of ten years of vesting service. Unreduced early retirement benefits are available for employees retiring from age 62 to age 65, who have completed 10 years of vesting service.

Retirement Plan – UGI Utilities, Inc. Employees That Are Former Non-Union Employees of UGI Central Penn Gas, Inc. Hired Prior to 1/1/2009 or Former Union Employees of UGI Central Penn Gas, Inc. Hired Prior to 1/1/2012

The Plan is a non-contributory defined benefit plan covering employees of UGI Central Penn Gas, Inc. hired prior to January 1, 2009. Effective January 1, 2009, the Plan was closed to new hires, rehires or transfers occurring on or after that date except for employees subject to a collective bargaining agreement. The plan closed for those employees on January 1, 2012.

Substantially all CPG employees of the UGI Employers hired prior to January 1, 2009, or January 1, 2012 for those covered under a collective bargaining unit, who complete five years of vesting service, as defined, or who reach normal retirement age, as defined, while in the employ of the UGI Employers, are entitled to benefits upon reaching normal retirement age, generally age 65.

The annual pension benefits shall generally be:

- 1.08% of average monthly earnings up to covered monthly earnings times years of credited service up to 35 years

Plus

- 1.35% of average monthly earnings that are more than the covered monthly earnings times years of credited service up to 35 years

There is a group of CPG employees whose pension benefits are calculated under a grandfathered pension formula. Their annual pension benefits shall generally be:

- 1.65% of the first \$833.34 of monthly earnings, plus 2% of monthly earnings in excess of \$833.34 for each year of credited service.

The Plan permits early retirement benefits at a reduced level at age 55 and completion of ten years of vesting service. Unreduced early retirement benefits are available for employees retiring from age 60 to age 65, who have completed 10 years of vesting service.

Retirement Plan – UGI Utilities, Inc. Employees That Are Former Employees of UGI Penn Natural Gas, Inc. Hired Prior to 1/1/2009

The Plan is a noncontributory defined benefit plan covering substantially all employees hired prior to January 1, 2009. Effective January 1, 2009, the Plan was closed to new hires, rehires or transfers occurring on or after that date.

Substantially all employees hired prior to January 1, 2009 who complete five years of vesting service, as defined, or who reach normal retirement age, as defined, are entitled to benefits upon reaching normal retirement age, generally age 65.

The annual pension benefits shall generally be:

- A. (1.25% of Final Average Earnings up to the Base Amount) times (your years of Credited Service up to 30 years)

Plus

- B. (1.65% of Final Average Earnings over the Base Amount) times (your years of Credited Service up to 30 years)

In no event will the benefit be less than the ratio of years of Credited Service (maximum of 30) divided by 30 and multiplied by \$1,800.

The Plan permits early retirement benefits at a reduced level at age 55 and completion of 10 years of vesting service. Unreduced early retirement benefits are available for employees retiring from age 62 to age 65, who have completed 10 years of vesting service.

Retiree Subsidy Medical Program – UGI Utilities, Inc. Employees

An eligible employee is any full-time employee of UGI Utilities, Inc. Who, as of January 1, 1989, was at least 55 years of age and had completed at least 10 years of service with UGI or an affiliated corporation or whose age and years of service equaled at least 80 and who immediately following his retirement from UGI commences receipt of an early, normal or late retirement pension.

Effective January 1, 2014, retiree medical for Medicare-eligible retirees (age 65 or over) was outsourced to a third party and the benefit was changed to a health reimbursement account. In addition, the Retiree Plan covers Medicare-eligible disabled employees who are receiving long term disability benefits. Retirees and spouses who retired on or after 1/1/1986 receive \$500 per calendar year and those who retired prior to 1/1/1986 receive \$700 per calendar year. (Retirees and spouses is a closed group)

Retiree Medical Insurance –UGI Utilities, Inc. Employees Previously Employed by UGI Central Penn Gas, Inc.

Any employees who previously retired from the employment of UGI Central Penn Gas, Inc. (or a predecessor employer ("CPG")) before the October 1, 2008 acquisition of CPG by UGI, an Eligible Retired Employee shall mean: any retired employee who was at least 55 years of age, had completed at least 10 years of service with CPG, had retired and commenced receipt of his retirement pension under the PPL Gas Retirement Plan immediately following his retirement from CPG and was receiving benefits under the PPL Gas Retiree Medical Plan as of October 1, 2008.

Any full-time employees of CPG who retired from the employment of CPG on or after the October 1, 2008 acquisition of CPG by UGI, an Eligible Retired Employee shall mean: any full-time employee of CPG who is at least 55 years of age, has completed at least 10 years of service with CPG, retires and commences receipt of his retirement pension under the PPL Gas Retirement Plan immediately following his retirement from CPG and retired from CPG on or after the October 1, 2008 acquisition of CPG by the Company, but on or before January 1, 2009;

Any full-time employee who was covered under the terms of a collective bargaining agreement between a collective bargaining representative and CPG and who is at least 55 years of age, has completed 10 years of service with CPG and retired prior to January 1, 2012.

Retiree Life Insurance

Pension-eligible employees who retire are eligible for retiree life insurance in the amount of 25% of their pre-retirement amount with a maximum coverage amount of \$50,000. There is no cost to the retiree.

Docket No. R-2024-3052716
UGI Gas 2025 Base Rate Case
Responses to Standard Data Requests - Revenue Requirement
Delivered on January 27, 2025

SDR-RR-25

Request:

Please provide a description of the Company's merit and cost of living wage rate increase policies.

Response:

The Company does not provide wage adjustments based on the changes in the cost of living index.

Non-Union Employees:

The Company maintains a salary structure which is comprised of salary grades and ranges. All non-union positions are assigned a salary range based on the competitive value of the job. The salary structure is reviewed periodically and adjusted, at the discretion of management, to remain externally competitive and internally equitable in order to attract, motivate, and retain quality employees. Please also see the Direct Testimony of Hans G. Bell, UGI Gas Statement No. 1, for additional detail related to incremental compensation benchmarking.

Funds are budgeted for merit increases based on prevailing market rates. Performance reviews are scheduled annually with employees. Merit increase guidelines are established, and individual performance ratings determine individual merit increases. Please see Attachment SDR-RR-25 for a summary of merit guidance provided to UGI Utilities, Inc. People Leaders for the Fiscal 2025 merit process.

Union Employees:

Employees who are represented by bargaining units are paid according to the rates negotiated in their labor agreements.

Prepared by or under the supervision of: Vivian K. Ressler

This document provides a summary of the FY25 Salary Planning Memo provided to People Leaders:

Salary Planning Guidelines:

Any salary adjustment amount above the Merit Budget will need to be reviewed and discussed with their HR Business Partner and would need to fit within the department’s current budget. The following scenarios may justify an additional Pay Adjustment:

- Employee’s salary falls below min of the pay range
- High performing employee’s salary falls below the midpoint of the pay range
- Internal Equity concerns

Merit Eligibility:

All Regular full-time (FT) and part-time (PT) employees in an Active status are eligible for merit review. The following groups are excluded from merit review:

- Employees on active Leave of Absence (LOA)
- Employees hired on or after July 1
- Union Employees

Merit Guidelines:

Annual Salary Planning is the time to reward employees based on the outcome of their performance review. Managers will be provided with "Merit Guidelines" based on the approved merit budget, the employee's performance rating, and current salary position in range (Merit Matrix).

- A default merit increase will populate for each employee based on Merit Guidelines
- Default merit increase for employees hired after the start of the prior fiscal year will be prorated based on hire date
- Managers have discretion to recommend a deviation from guidelines while remaining within overall budget

FY25 Merit Matrix (for FY24 Performance Year) – 4% Budget

PERFORMANCE LEVEL	FIRST THIRD	MIDDLE THIRD	UPPER THIRD	ABOVE MAXIMUM
EXCEEDED OBJECTIVES	5% 4.0% - 6.0%	4% 3.2% - 4.8%	3% 2.4% - 3.6%	2% 1.6% - 2.4% Above-Max 1x Pymt

DID NOT MEET OBJECTIVES	NONE	NONE	NONE	NONE

Additional Pay Guidelines:

- Below Minimum: Every effort should be made to bring the employee up to minimum
- At or Above Max: Employee with current salary at or above pay range max may receive an above max one-time merit payment in lieu of a base pay merit increase for this fiscal year
- Promotions: On-cycle promotions should be processed after the salary planning process is complete. The effective date of promotion may be retro to October 1, 2024
- Terminations: If, prior to completion of the annual salary planning process, an employee gives notice of an intent to separate from the Company, guidance is not to award a merit increase

- The American Gas Association (AGA) is a trade association that represents more than 200 local energy companies that deliver clean natural gas throughout the United States.
- The Energy Association of Pennsylvania (EAP) is a trade association whose members include the electric and natural gas utilities operating in Pennsylvania.
- The Energy Solutions Center, Inc. (ESC) is a non-profit organization of energy utilities and equipment manufacturers that promotes energy efficient natural gas solutions and systems for use by residential, commercial, and industrial energy users.
- The Gas Technology Institute membership provides for participation in the Operations Technology Development Company (“OTD”), an associated company of the Gas Technology Institute. Additional specific information related to OTD can be found on their website: <https://www.otd.org/>. OTD is collaborative effort to develop advanced technologies for the natural gas industry. Key reports and areas of focus are available on the OTD website. UGI Gas is currently in process of finalizing the associated membership agreement with OTD. This membership supports access to best practices related to the natural gas industry technologies as well as furthering support for newer or emerging gas technologies; all of which stand to benefit natural gas customers by enhancing efficient operational and equipment standards.
- The Northeast Gas Association (NGA) is a regional trade association that focuses on education and training, technology research and development, operations, planning, and increasing public awareness of natural gas in the Northeast U.S.

National Association of Regulatory Utility Commissioners

March 2005

To: The State Regulatory Commissions
From: The NARUC Staff Subcommittee on Accounting and Finance
Re: Transmittal of the 2002 Report on the Expenditures of the American Gas Association

Dear State Regulatory Commissions:

This is the annual report on the expenditures of the American Gas Association (AGA) provided for your review and consideration. Hopefully you will find the information contained herein to be useful in helping you to decide which, if any, of the costs of the association you should approve for inclusion in utility rates. Often, state commissioners review the costs of the association charged or allocated to the utilities in their jurisdiction in accordance with the policies of their commission for treatment of costs directly incurred by the state's utilities for similar activities.

With the possible exception of expenses directly related to research and development relevant to utility operations, and a proportional amount of associated administrative overhead expense, these expense categories may be viewed by some State commissions as potential vehicles for charging ratepayers with such costs as lobbying, advocacy or promotional activities which may not be to their benefit.

The Staff Subcommittee on Accounting and Finance is pleased to provide you with the AGA report for 2002 to allow you to review the information contained therein and to utilize it in a manner consistent with your commission's regulatory policies and practices.

Sincerely,

Thomas J. Ferris
Chair
Staff Subcommittee on Accounting and Finance

Calculation of Lobbying Expenses Pursuant to
Internal Revenue Code Section 162(e)

The American Gas Association incurred lobbying expenses, as defined under IRC Section 162, of 2.28% of total member dues during calendar year 2002.

IRC Section 162 Definition of Lobbying

- (e) Denial of deduction for certain lobbying and political expenditures
- (1) In general no deduction shall be allowed under subsection (a) for any amount paid or incurred in connection with -
 - (A) influencing legislation,
 - (B) participation in, or intervention in, any political campaign on behalf of (or in opposition to) any candidate for public office,
 - (C) any attempt to influence the general public, or segments thereof, with respect to elections, legislative matters, or referendums, or
 - (D) any direct communication with a covered executive branch official in an attempt to influence the official actions or positions of such official.
 - (2) Exception for local legislation - In the case of any legislation of any local council or similar governing body -
 - (A) paragraph (1)(A) shall not apply, and
 - (B) the deduction allowed by subsection (a) shall include all ordinary and necessary expenses (including, but not limited to, traveling expenses described in subsection (a)(2) and the cost of preparing testimony) paid or incurred during the taxable year in carrying on any trade or business -
 - (i) in direct connection with appearances before, submission of statements to, or sending communications to the committees, or individual members, of such council or body with respect to legislation or proposed legislation of direct interest to the taxpayer, or
 - (ii) in direct connection with communication of information between the taxpayer and an organization of which the taxpayer is a member with respect to any such legislation or proposed legislation which is of direct interest to the taxpayer and to such organization, and that portion of the dues so paid or incurred with respect to any organization of which the taxpayer is a member which is attributable to the expenses of the activities described in clauses (i) and (ii) carried on by such organization.
 - (3) Application to dues of tax-exempt organizations - No deduction shall be allowed under subsection (a) for the portion of dues or other similar amounts paid by the taxpayer to an organization which is exempt from tax under this subtitle which the organization notifies the taxpayer under section 6033(e)(1)(A)(ii) is allocable to expenditures to which paragraph (1) applies.
 - (4) Influencing legislation - For purposes of this subsection -
 - (A) In general The term "influencing legislation" means any attempt to influence any legislation through communication with any member or employee of a legislative body, or with any government official or employee who may participate in the formulation of legislation.
 - (B) Legislation - The term "legislation" has the meaning given such term by section 4911(e)(2).
 - (5) Other special rules
 - (A) Exception for certain taxpayers - In the case of any taxpayer engaged in the trade or business of conducting activities described in paragraph (1), paragraph (1) shall not apply to expenditures of the taxpayer in conducting such activities directly on behalf of another person (but shall apply to payments by such other person to the taxpayer for conducting such activities).
 - (B) De minimis exception
 - (i) In general Paragraph (1) shall not apply to any in-house expenditures for any taxable year if such expenditures do not exceed \$2,000. In determining whether a taxpayer exceeds the \$2,000 limit under this clause, there shall not be taken into account overhead costs otherwise allocable to activities described in paragraphs (1)(A) and (D).
 - (ii) In-house expenditures for purposes of clause (i), the term "in-house expenditures" means expenditures described in paragraphs (1)(A) and (D) other than -
 - (I) payments by the taxpayer to a person engaged in the trade or business of conducting activities described in paragraph (1) for the conduct of such activities on behalf of the taxpayer, or
 - (II) dues or other similar amounts paid or incurred by the taxpayer which are allocable to activities described in paragraph (1).
 - (C) Expenses incurred in connection with lobbying and political activities - Any amount paid or incurred for research for, or preparation, planning, or coordination of, any activity described in paragraph (1) shall be treated as paid or incurred in connection with such activity.
 - (6) Covered executive branch official - For purposes of this subsection, the term "covered executive branch official" means -
 - (A) the President,
 - (B) the Vice President,
 - (C) any officer or employee of the White House Office of the Executive Office of the President, and the 2 most senior level officers of each of the other agencies in such Executive Office, and
 - (D) (i) any individual serving in a position in level I of the Executive Schedule under section 5312 of title 5, United States Code, (ii) any other individual designated by the President as having Cabinet level status, and (iii) any immediate deputy of an individual described in clause (i) or (ii).
 - (7) Special rule for Indian tribal governments - For purposes of this subsection, an Indian tribal government shall be treated in the same manner as a local council or similar governing body.
 - (8) Cross reference - For reporting requirements and alternative taxes related to this subsection, see section 6033(e).

IRS may make a charge for its photocopying service.

AMERICAN GAS ASSOCIATION**Notes to Financial Statements**

(1) Continued***Revenue Recognition***

Membership dues are recognized as revenue in the year to which the membership applies. Dues received in advance are deferred. Publications revenue is recognized upon the sale of the related publication and meetings revenue is recognized when the related meetings are held.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Functional Allocation of Expenses

The costs of providing the various programs and other activities have been summarized on a functional basis in the statements of activities. Accordingly, certain costs have been allocated among the programs and supporting services benefited. Salaries are charged directly to the programs and supporting services served. Fringe benefits are allocated to the programs and supporting services proportionate to salaries charged, and certain expenses benefiting all programs and supporting services are allocated based on the number of staff supporting each service.

Income Taxes

The Association is recognized as exempt from federal income tax under Section 501(c)(6) of the Internal Revenue Code, except for taxes on unrelated business income. Income tax expense on unrelated business activities totaled approximately \$25,000 and \$20,500 for the years ended December 31, 2002 and 2001, respectively.

The Association has elected to pay the federal proxy tax on behalf of its members on expenses related to lobbying activities. The proxy tax approximates \$125,000 for both years ended December 31, 2002 and 2001.

Reclassifications

Certain reclassifications of prior year balances have been made to conform to the current year presentation.

AMERICAN GAS ASSOCIATION

Notes to Financial Statements

(4) Pension and Other Postretirement Benefits

The Association has the following noncontributory defined benefit pension plans:

- a qualified plan which covers substantially all Association employees,
- a non-qualified plan which is for employees who were determined to be eligible by the Association's Compensation Committee when the plan was created in 1985 (plan was frozen to new participants in 1986), and
- a non-qualified "excess" plan for those employees whose compensation exceeds the IRS limits for the qualified plan. This plan was approved by the Compensation Committee and is effective January 1, 2003.

These plans provide retirement benefits based on employees' years of services and compensation prior to retirement. In addition, there is an unfunded, nonqualified supplemental retirement benefit plan for the President and CEO that was approved by the Board of Directors in February 2001.

The funded plan's assets consist primarily of common stocks and U.S. government and corporate bonds.

The following provides a reconciliation of benefit obligations, plan assets, and funded status of the plans at December 31, 2002 and 2001:

	Pension Benefits		Other Postretirement Benefits	
	2002	2001	2002	2001

American Gas Association (AGA)

Source: <https://www.aga.org/about/>

About:

The American Gas Association, founded in 1918, represents more than 200 local energy companies that deliver clean natural gas throughout the United States. There are more than 78 million residential, commercial and industrial natural gas customers in the U.S., of which 95 percent — more than 74 million customers — receive their gas from AGA members. Today, natural gas meets one-third of the United States' energy needs.

Mission:

The American Gas Association (AGA) develops and advocates for informed, innovative, and durable policy that fulfills our nation's energy needs, environmental aspirations and economic potential. Additionally, the AGA provides state-of-the-art solutions for AGA members to safely and securely deliver reliable and affordable natural gas and advanced fuels to homes and businesses across the nation.

Vision:

Provide America with essential life-sustaining energy.

RE: UGI Utilities, Inc.
Docket No. FA20-3-000
Implementation Plan in Response to January 14, 2021 Audit Report

Dear Ms. Fleet:

In conjunction with UGI Utilities, Inc.'s ("UGIU's") January 8, 2021 response to the Federal Regulatory Commission (the "Commission") audit report dated January 14, 2021 ("Audit Report"), please accept UGIU's plan of implementing the audit recommendations contained in the Audit Report.

As set forth in the attached implementation plan, UGIU accepts many of the Division of Audit and Accounting's ("DAA's") audit findings and recommendations in the Audit Report and provides documented corrective action plans and timelines for each of the 50 recommendations. UGIU will make quarterly submissions to DAA describing the progress made with respect to each recommendation, beginning within 30 days after the end of the first calendar quarter, and continuing until all the corrective actions are completed. UGIU's submission of its implementation plan is without prejudice to, or waiver of its rights, including its right to contest the Commission's authority generally to make retroactive changes to, or require refunds for, rates that have been allowed to go into effect.

Should you have any questions concerning UGIU's response, please direct your questions to [REDACTED], or me, at [REDACTED].

Sincerely,

UGI UTILITIES, INC.
IMPLEMENTATION PLAN FOR
FEDERAL ENERGY REGULATOR COMMISSION AUDIT
OFFICE OF ENFORCEMENT DOCKET NO. FA20-3-000

1. EXCESS ACCUMULATED DEFERRED INCOME TAX

UGIU improperly recorded the excess Accumulated Deferred Income Taxes (ADIT) related to the 2017 Tax Cuts and Jobs Act in Account 282, Accumulated Deferred Income Taxes – Other Property and Account 190, Accumulated Deferred Income Taxes. In addition, UGIU improperly excluded excess and deficient ADIT, created as a result of the 2017 Tax Cuts and Jobs Act, from its wholesale transmission formula rate computation. As a result, UGIU overstated its annual transmission revenue requirement by approximately \$357,476 and overbilled wholesale transmission customers in 2018.

UGIU Response

UGIU accepts this finding and the recommendations.

RECOMMENDATION NO. 1

Implement procedures to ensure that deficient and excess ADIT asset and liability amounts are included in rate base for the computation of the annual transmission revenue requirement.

Action: On May 15, 2020, UGIU submitted an Order No. 864 Compliance Filing making updates to its formula rate to encompass the impacts of the TCJA relates to such items as excess ADIT and its subsequent amortization. Further, in filing its 2019 FERC formula rate, the Company included the excess ADIT in its wholesale transmission formula rate computation. Lastly, the Company made correcting entries to reclass the deferred tax asset associated with the excess ADIT from account 190 to account 282.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

Expected Completion Date: Completed

RECOMMENDATION NO. 2

Revise its accounting policies and procedures to ensure that the effect of changes in tax laws or tax rates are implemented in accordance with the Commission's accounting guidance in Docket No. AI93-5.

Action: UGIU will internally develop and deliver training to its staff to ensure that the effect of changes in tax laws or tax rates are implemented in accordance with the Commission's accounting guidance. In addition, UGIU will formalize future periodic training with internal and external counsel to ensure that the proper accounting individuals are knowledgeable on any FERC accounting and tax updates.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

UGI UTILITIES, INC.
IMPLEMENTATION PLAN FOR
FEDERAL ENERGY REGULATOR COMMISSION AUDIT
OFFICE OF ENFORCEMENT DOCKET NO. FA20-3-000

Expected Completion Date: The internal training will be conducted by May 15, 2021. The training with counsel will be conducted within 12 months of issuance of the audit report.

RECOMMENDATION NO. 3

Submit correcting journal entries, within 60 days of issuance of this audit report, with proposed accounting entries and supporting documentation to DAA that reflect corrections to recorded excess and deficient ADIT in the appropriate USofA accounts.

Action: UGIU will submit correcting journal entries reflecting corrections to recorded excess and deficient ADIT in the appropriate USofA accounts to DAA.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

Expected Completion Date: March 15, 2021

RECOMMENDATION NO. 4

Submit a refund analysis, within 60 days of issuance of the audit report, to DAA for review that explains and details the following: (1) calculation of refunds that include the amount of excess and deficient ADIT asset and liability amounts excluded from the transmission formula rates in 2018, plus interest; (2) determinative components of the refund; (3) refund method; and (4) period(s) refunds will be made.

Action: UGIU will complete and submit a refund analysis to DAA that explains and details all items listed in recommendation no. 4.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

Expected Completion Date: March 15, 2021

RECOMMENDATION NO. 5

File a refund report with the Commission after receiving DAA's assessment of the refund analysis.

Action: UGIU will file a consolidated refund report with the Commission after receiving DAA's assessment of the submitted refund analysis.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

UGI UTILITIES, INC.
IMPLEMENTATION PLAN FOR
FEDERAL ENERGY REGULATOR COMMISSION AUDIT
OFFICE OF ENFORCEMENT DOCKET NO. FA20-3-000

Expected Completion Date: Within 60 days of receiving DAA's assessment of the submitted refund analysis.

RECOMMENDATION NO. 6

Refund amounts disclosed in the refund report to wholesale transmission customers with interest calculated in accordance with section 35.19a of the Commission's regulations.

Action: UGIU will refund amounts disclosed in the refund report as specified in recommendation no. 6.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

Expected Completion Date: Amounts will be refunded as a reduction of UGIU's transmission rates, reflected in its first formula rate filing following the filing of the related refund report.

2. ALLOWANCE FOR FUNDS USED DURING CONSTRUCTION

UGIU's method for computing its AFUDC rate was deficient. Specifically, UGIU improperly excluded short-term debt, as the first source of financing construction, in calculating its AFUDC rate. In addition, UGIU improperly included Account 216.1, Unappropriated Undistributed Subsidiary Earnings, and Account 219, Accumulated Other Comprehensive Income, in the equity component to compute its AFUDC rate. Also, UGIU improperly used its fiscal year-end book balance for long-term debt and common equity amounts when computing its AFUDC rate rather than the calendar year-end balances reported in its FERC Form No. 1 during the audit period. As a result, UGIU overaccrued AFUDC amounts included in utility plant accounts by approximately \$436,000 from 2017 to 2019 and overbilled wholesale transmission customers.

UGIU Response

UGIU accepts this finding and the recommendations. The Company has calculated the overaccrued amount related to transmission customers to be approximately \$58,000.

RECOMMENDATION NO. 7

Revise and implement procedures to ensure that AFUDC rate calculations are consistent with Order Nos. 561 and 561-A, EPI No. 3 (A)(17), and other applicable Commission requirements.

Action: During 2019, UGIU revised its procedures to ensure that the AFUDC rate calculations are consistent with applicable Commission requirements.

RECOMMENDATION NO. 8

Revise its procedures to ensure that it includes short-term debt in the computation of the AFUDC rate for its electric utility business.

Action: During 2019, UGIU revised its procedures to ensure that short-term debt is included in the computation of the AFUDC rate for its electric utility business.

Individual Responsible: Senior Manager, SOX, Plant Accounting & AP

Expected Completion Date: Completed

RECOMMENDATION NO. 9

Revise its procedures to exclude Account 216.1 and Account 219 balances from the equity components used to derive its AFUDC rate.

Action: During 2019, UGIU revised its procedures to exclude Account 216.1 and Account 219 balances from the equity components used to derive its AFUDC rate.

Individual Responsible: Senior Manager, SOX, Plant Accounting & AP

Expected Completion Date: Completed

RECOMMENDATION NO. 10

Revise its procedures to ensure that it computes AFUDC rates using the calendar year-end balances reported in its FERC Form No. 1 for common equity, preferred stock, and long-term debt.

Action: UGIU will file a request for waiver to continue its practice of using its fiscal year-end balances for common equity, preferred stock and long-term debt balances in its AFUDC rate computation.

RECOMMENDATION NO. 11

Provide training to its staff on the revised procedures implemented under Recommendation Nos. 7, 8, 9, and 10. Provide periodic training in these areas as needed.

Action: UGIU will internally develop and deliver training to its staff on the revised procedures implemented under Recommendation Nos. 7, 8, 9, and 10. In addition, UGIU will formalize future periodic training with internal and external counsel to ensure that the proper accounting individuals are knowledgeable on any FERC accounting and tax updates.

Individual Responsible: Senior Manager, SOX, Plant Accounting & AP

Expected Completion Date: The internal training will be conducted by May 15, 2021. The training with counsel will be conducted within 12 months of issuance of the audit report.

RECOMMENDATION NO. 12

Recalculate its accrued AFUDC, in a manner consistent with EPI No. 3(A)(17) that corrects for the improper exclusion of short-term debt, improper inclusion of Account 216.1 and 219 balances, and improper use of fiscal year-end book balances for common equity, preferred stock, and long-term debt from 2012 through the date of issuance of the audit report.

Action: UGIU will recalculate its accrued AFUDC, as specified in recommendation no. 12.

Individual Responsible: Senior Manager, SOX, Plant Accounting & AP

Expected Completion Date: March 15, 2021

RECOMMENDATION NO. 17

Refund the amounts disclosed in the refund report to wholesale customers, with interest calculated in accordance with section 35.19a of Commission regulations.

Action: UGIU will refund amounts disclosed in the refund report as specified in recommendation no. 17.

Individual Responsible: Senior Manager, SOX, Plant Accounting & AP

Expected Completion Date: Amounts will be refunded as a reduction of UGIU's transmission rates, reflected in its first formula rate filing following the filing of the related refund report.

3. POSTRETIREMENT BENEFITS OTHER THAN PENSIONS

UGIU improperly included ADIT related to SFAS 106, Employers' Accounting for Postretirement Benefits Other Than Pensions, as an input to its wholesale transmission formula rate contrary to the directives of its tariff. As a result, UGIU overstated the ADIT balances included in its wholesale transmission formula rate, which led to overstating its annual transmission revenue requirements and overbilling its wholesale transmission customers.

UGIU Response

UGIU accepts this finding and the recommendations.

RECOMMENDATION NO. 18

Revise and implement procedures, policies, and controls to track and review the transmission formula rate inputs and calculations for accuracy, completeness, and compliance with UGIU's Commission approved formula rate.

Action: UGIU corrected this inadvertent formula error in filing its 2020 FERC formula rate.

Action: UGIU will refund amounts disclosed in the refund report as specified in recommendation no. 22.

Individual Responsible: Senior Manager Natural Gas Tax Accounting

Expected Completion Date: Amounts will be refunded as a reduction of UGIU's transmission rates, reflected in its first formula rate filing following the filing of the related refund report.

4. COMMON PLANT O&M EXPENSES

UGIU improperly included common plant O&M expenses, that were also included as A&G expenses, in its wholesale transmission formula rate. As a result, UGIU double counted expenses associated with common plant, and consequently, overstated its wholesale transmission revenue requirement by approximately \$423,454 during the audit period. This led UGIU to overbill its wholesale transmission customers.

UGIU Response

UGIU accepts this finding and the recommendations.

RECOMMENDATION NO. 23

Develop and implement procedures, policies, and controls to ensure expenses included in the transmission formula rate are not included in multiple areas.

Action: UGIU will develop and implement procedures, policies, and controls, focusing on coding of the Company's natural chart of accounts, mapping to the FERC chart of accounts, and how those amounts are inputted to the Company's formula rate. This will ensure expenses included in the transmission formula rate are not included in multiple areas.

Individual Responsible: Assistant Controller

Expected Completion Date: Amounts will be refunded as a reduction of UGIU's transmission rates, reflected in its first formula rate filing following the filing of the related refund report.

5. TRANSMISSION REVENUE CREDITS

UGIU understated its revenue credits that were used to reduce the annual transmission revenue requirements calculated by its wholesale transmission formula rate by improperly excluding certain transmission- related revenues recorded in Account 454, Rent from Electric Property. Additionally, UGIU improperly accounted for rental revenue associated with third parties' usage of its utility assets by recording such revenue in Account 418, Nonoperating Rental Income. As a result, UGIU understated the revenue credits includible in its wholesale transmission formula rate, which led to an overstatement of its annual transmission revenue requirements.

UGIU Response

UGIU accepts this finding and the recommendations.

RECOMMENDATION NO. 28

Develop and implement procedures and policies to track, report, review, and account for wholesale transmission revenues consistent with Commission accounting and ratemaking requirements.

6. ACCOUNTING FOR AFFILIATE TRANSACTIONS

UGIU misclassified various expenses associated with services provided by its parent company in Account 923, Outside Services Employed. Also, UGIU did not consistently apply its internally calculated, cost allocation percentages used to allocate costs between UGIU's electric utility business and its gas utility business. These allocation errors resulted in improper amounts being included in UGIU's wholesale transmission formula rate.

RECOMMENDATION NO. 35

Revise and implement procedures, policies and controls to ensure the correct allocation factors are used to calculate and allocate common expenses recorded in the A&G accounts for the electric utility business.

Action: UGIU has revised its procedures, policies and controls to ensure the correct allocation factors are used to calculate and allocate common expenses recorded in the A&G accounts for the electric utility business. With the Company's implementation of a new ERP system, SAP, in July of 2019, employees are instructed to code common A&G costs to shared cost centers, which are then systematically allocated to the electric utility business based on the Company's annual MWF allocation. No manual allocation should be completed going forward. This methodology is also documented in UGIU's updated 2020 Cost Allocation Manual. Accounting also performs periodic checks to ensure that all costs coded to the shared cost centers are properly allocated.

Purposes of valuation

UGI Utilities, Inc. (UGI) engaged Willis Towers Watson US LLC (“WTW”) to value UGI’s postretirement benefit plans.

As requested by UGI, this report documents the results of an actuarial valuation of the Plans:

- UGI Utilities Postretirement Welfare Plan (Utilities)
- Central Penn Gas Postretirement Welfare Plan (CPG)
- Penn Natural Gas Postretirement Welfare Plan (PNG)

The primary purpose of this valuation is to determine the Net Periodic Postretirement Benefit Cost/(Income) (Benefit Cost), in accordance with FASB Accounting Standards Codification Topic 715 (ASC 715) for the fiscal year ending September 30, 2024. It is anticipated that a separate report will be prepared for year-end financial reporting purposes. This report also includes plan reporting information in accordance with FASB Accounting Standards Codification Topic 965 (ASC 965) and the estimated maximum tax-deductible contribution for the tax year in which the 2024 plan year ends as allowed by the Internal Revenue Code. The maximum tax-deductible contribution should be finalized in consultation with UGI Utilities, Inc.’s tax advisor.

Limitations

This valuation has been conducted for the purposes described above and may not be suitable for any other purpose. In particular, please note the following:

1. The expected contribution to the other postretirement benefits plan(s) has been set at \$0. Note that any significant change in the amounts contributed or expected to be contributed in 2024 from what is disclosed at September 30, 2023 may require disclosure in the interim financial statements, but should not affect the expected return on plan assets absent a remeasurement for another purpose.
2. There may be certain events that have occurred since the valuation date that are not reflected in the current valuation. See Subsequent Events in the Basis for Valuation section below for more information.
3. This report does not present liabilities on a plan termination basis, for which a separate extensive analysis would be required. No funded status measure included in this report is intended to assess, and none may be appropriate for assessing, the sufficiency of plan assets to cover the estimated cost of settling benefit obligations, as all such measures differ in some way from plan termination obligations. In addition, funded status measures shown in this report do not reflect the current costs of settling obligations by offering immediate lump sum payments to participants and/or purchasing annuity contracts for the remaining participants (e.g., insurer profit, insurer pricing of contingent benefits and/or provision for anti-selection in the choice of a lump sum vs. an annuity).
4. The comparisons of plan obligations as determined for accounting and financial reporting purposes to plan assets presented in this report cannot be relied upon to determine the need for nor the amount of required future plan contributions. Nevertheless, such comparisons may be useful to assess the need for future contributions because they reflect current interest rates at the measurement date in determining benefit obligations. However, asset gains and losses, demographic

experience different from assumed, changes in interest rates, future benefit accruals, if any, and other factors will all affect the need for and amount of future contributions. In addition, if a plan is not required by law to be funded, benefit payments may also be paid directly by the plan sponsor as they come due.

Participant Data	Census Date	10/1/2023	10/1/2022

1.2 Comments on results

The consolidated actuarial gains/(losses) due to demographic experience, including any assumption changes, and investment return different from assumed during the prior year were \$743,943 and \$1,435,810 respectively.

Change in net periodic cost and funded position

The net periodic cost decreased from \$(251,357) in fiscal 2023 to \$(549,522) in fiscal 2024 and the funded position improved from \$5,747,083 to \$8,106,504.

Significant reasons for these changes include the following:

- The discount rate used to measure APBO increased 45 basis points for Utilities, 52 basis points for CPG, and 43 basis points for PNG compared to the prior year, which reduced the net periodic cost and improved the funded position.
- The actual return on the fair value of plan assets since the prior measurement date was greater than the expected return on plan assets, which improved the funded position.

Effects of Health Care Reform

This valuation reflects our understanding of the relevant provisions of the Patient Protection and Affordable Care Act (PPACA) and Health Care and Education Reconciliation Act (HCERA), and subsequent legislation (the SECURE Act of 2019) that eliminated the Cadillac tax, medical device tax and health insurance issuer tax. It also reflects our understanding of the effects of the Inflation Reduction Act of 2022 on retiree medical costs. The IRS and the Centers for Medicare Services (CMS) have yet to issue final guidance with respect to many aspects of these laws. It is possible that future guidance may conflict with our understanding of these laws based on currently available guidance and could therefore affect the results shown in this report. The valuation does not anticipate the effects of any additional possible future changes.

1.3 Basis for valuation

Appendix A summarizes the assumptions, methods and models used in the valuation. Appendix B summarizes our understanding of the principal provisions of the plans being valued. Both of these appendices include a summary of any changes since the prior valuation. Unless otherwise described below under Subsequent Events, assumptions were selected based on information known as of the measurement date.

Subsequent events

None.

Additional information

The Inflation Reduction Act (IRA) was signed on August 16, 2022. This new law includes health care provisions related to Medicare and healthcare financing. While guidance is still forthcoming, the potential effect of the new legislation has been considered in preparing these results. Based on the information available, and the specific plan provisions, changes were not made to assumptions. Additional changes may be reflected in future valuations as more guidance becomes available and actual plan experience is used to inform future expectations.

Actuarial certification

This valuation has been conducted in accordance with generally accepted actuarial principles and practices. However, please note the information described below regarding this valuation.

Reliances

In preparing the results presented in this report, we have relied on information regarding plan provisions, participants, assets, and sponsor accounting policies and methods provided by the Company and other persons or organizations designated by the Company. See the Sources of Data and Other Information section of Appendix A for further details. We have relied on all the data and information provided as complete and accurate. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. Based on discussions with and concurrence by the plan sponsor, assumptions or estimates may have been made if data were not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations. The results presented in this report are directly dependent upon the accuracy and completeness of the underlying data and information. Any material inaccuracy in the data, assets, plan provisions or other information provided to us may have produced results that are not suitable for the purposes of this report and such inaccuracies, as corrected by the Company, may produce materially different results that could require that a revised report be issued.

Measurement of benefit obligations, plan assets and balance sheet adjustments

Census date/measurement date

The measurement date is October 1, 2023. The benefit obligations were measured as of October 1, 2023 and are based on participant data as of the census date, which is displayed by Plan in Appendix C.

Plan assets and balance sheet adjustments

Information about the fair value of plan assets and the general ledger account balances for the other postretirement benefit plans cost at September 30, 2023, which reflect the expected funded status of the plans before adjustment to reflect the funded status based on the year-end measurements, and differences between the expected Medicare Part D subsidies and amounts received during the year was reviewed for reasonableness and consistency, but no audit was performed.

Accumulated other comprehensive (income)/loss amounts shown in the report are shown prior to adjustment for tax effects. Any tax effects in AOCI should be determined by the Company in consultation with its tax advisors and independent accountants.

Assumptions and methods under U.S. GAAP

As required by U.S. GAAP, the actuarial assumptions and methods employed in the development of the other postretirement benefit cost and other financial reporting have been selected by UGI. WTW has evaluated the assumptions used and believes that they do not significantly conflict with what would be reasonable. In addition, we believe that the combined effect of assumptions is expected to have no

significant bias. See Appendix A for a description of each significant assumption used and our rationale for concluding that it does not significantly conflict with what would be reasonable.

U.S. GAAP requires that each significant assumption “individually represent the best estimate of the plan’s future experience solely with respect to that assumption.”

The results shown in this report have been developed based on actuarial assumptions that, to the extent evaluated by WTW, we believe do not significantly conflict with what would be reasonable. Other actuarial assumptions could also be considered to not significantly conflict with what would be reasonable. Thus, reasonable results differing from those presented in this report could have been developed by selecting different reasonable assumptions.

A summary of the assumptions, methods and sources of data and other information used is provided in Appendix A. Note that any subsequent changes in methods or assumptions for the October 1, 2023 measurement date will change the results shown in this report.

Certain models (as described in ASOP No. 56) were used in preparing the information presented herein. Further information on these models can be found in Appendix A.

Nature of actuarial calculations

The results shown in this report are estimates based on data that may be imperfect and on assumptions about future events that cannot be predicted with any certainty. The effects of certain plan provisions may be approximated, or determined to be insignificant and therefore not valued. Reasonable efforts were made in preparing this valuation to confirm that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and are not excluded or included inappropriately. Any rounding (or lack thereof) used for displaying numbers in this report is not intended to imply a degree of precision, which is not a characteristic of actuarial calculations.

If overall future plan experience produces higher benefit payments or lower investment returns than assumed, the relative level of plan costs reported in this valuation will likely increase in future valuations (and vice versa). Future actuarial measurements may differ significantly from the current measurements presented in this report due to many factors, including: plan experience differing from that anticipated by the economic or demographic assumptions, changes in economic or demographic assumptions, increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period), and changes in plan provisions or applicable law. Due to the limited scope of our assignment, we did not perform an analysis of the potential range of such future measurements. Retiree group benefits models necessarily rely on the use of approximations and estimates, and are sensitive to changes in these approximations and estimates. Small variations in these approximations and estimates may lead to significant changes in actuarial measurements.

See Basis for Valuation in Section 1 above for a discussion of any material events that have occurred after the valuation date that are not reflected in this valuation.

Limitations on use

This report is provided subject to the terms set out herein and in our engagement letter dated August 28, 2023 and any accompanying or referenced terms and conditions.

The information contained in this report was prepared for the internal use of the Company and its independent accountants in connection with our actuarial valuation of the other postretirement benefit plans as described in Purposes of Valuation above. It is not intended for and may not be used for other purposes, and we accept no responsibility or liability in this regard. The Company may distribute this actuarial valuation report to the appropriate authorities who have the legal right to require the Company to provide them this report, in which case the Company will use best efforts to notify WTW in advance of this distribution. Further distribution to, or use by, other parties of all or part of this report is expressly prohibited without WTW's prior written consent. WTW accepts no responsibility for any consequences arising from any party other than UGI Corporation relying on this report or any advice relating to its contents.

Methods

Postretirement welfare cost:

- Measurement date Fiscal year-end
- Service cost and APBO Projected unit credit actuarial cost method, allocated from the date of hire to full eligibility date
- Market-related value of assets Fair value
- Amortization of prior service cost/(credit)

Amortization of net prior service cost/(credit) resulting from a plan change is included as a component of Net Periodic Postretirement Benefit Cost/(Income) in the year first recognized and every year thereafter until such time as it is fully amortized. The annual amortization payment is determined in the first year as the increase in Accumulated Postretirement Benefit Obligation due to the plan change divided by the average remaining service period to full eligibility for participating employees expected to receive benefits under the plans.

However, when the plan change reduces the Accumulated Postretirement Benefit Obligation, existing positive prior service costs are reduced or eliminated before a new prior service credit base is established.
- Amortization of net loss (gain)

Amortization of the net gain or loss resulting from experience different from that assumed and from changes in assumptions (excluding asset gains and losses not yet reflected in market-related value) is included as a component of Net Periodic Postretirement Benefit Cost/(Income) for a year.

If, as of the beginning of the year, that net gain or loss exceeds 10% of the greater of the projected benefit obligation and the market-related value of plan assets, the amortization is that excess divided by the average remaining service period of participating employees expected to receive benefits under the plan.
- Benefits not valued

All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions with the Company and, based on that review, is not aware of any other significant benefits required to be valued that were not.
- Valuation date for funding

First day of plan year. Key employees are excluded from this calculation, as are life insurance benefits in excess of \$50,000.
- Actuarial funding liability

Aggregate cost method
- Actuarial value of assets:

Market value

Data Sources

UGI Utilities, Inc. furnished the participant data as of October 1, 2023. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data was not available. We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Change in Assumptions and Methods Since Prior Valuation

The discount rate for benefit obligations was changed from 5.60% to 6.05% for Utilities, 5.50% to 6.02% for CPG, and 5.70% to 6.13% for PNG.

The mortality assumption scale was updated from MP-2020 to MP-2021. The associated rate reduction factor was updated from 4.9% to 4.5%.

Assumptions Rationale - Significant Economic Assumptions

Discount rate	As required by U.S. GAAP the discount rate was chosen by the plan sponsor based on market information on the measurement date. To accomplish this, the plan sponsor used a tool named BOND:Link which constructs a hypothetical yield curve based on yields available high quality corporate bonds as of the measurement date.
Annual rates of increase in compensation	Assumed increases were chosen by the plan sponsor and, as required by U.S. GAAP they represent an estimate of future experience.
Expected return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. The analysis was informed by analysis of historical data, economists' forecasts and recent trends for CPI, GDP growth, and real returns on the various classes of assets held by the trust.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumption was selected by the plan sponsor and, as required by U.S. GAAP represents a best estimate of future experience, partially based on, based on a review of actual retiree experience from 2015-2019 conducted in 2020.
Termination	Termination rates were selected by the plan sponsor and, as required by U.S. GAAP represents a best estimate of future experience, based on a review of actual plan experience from 2015-2019 conducted in 2020.
Retirement	Retirement rates were selected by the plan sponsor and, as required by U.S. GAAP represents a best estimate of future experience, based on a review of actual plan experience from 2015-2019 conducted in 2020.

Model Descriptions and Disclosures (in accordance with ASOP No. 56)

Quantify

Quantify is the Willis Towers Watson centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans.

Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports.

Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered. The calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected.

Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Quantify FR

Quantify Financial Reporting (FR) is intended to calculate funding results, accounting results and produce the associated client reports under selected accounting standards. The calculations and reports are based on various user specified inputs including liability results and asset values.

Quantify FR develops valuation results for various accounting and funding purposes using standard actuarial techniques.

Calculation of disclosure liabilities and results are based on roll forward liabilities.

Liability roll-forwards are used in accounting scenarios where the date as of which liabilities are valued does not coincide with the fiscal year measurement date. The roll-forwards consist of adjusting liabilities for the passage of time.

Bond:Link

U.S. **BOND:Link** is a methodology to assist with the selection of discount rates used in liability and cost measurements related to employee benefit plans. Discount rates are derived by identifying a theoretical settlement portfolio of high-quality corporate bonds sufficient to provide for a plan's projected benefit payments. The single interest rate is then determined that results in a discounted value of the plan's benefit payments that equals the market value of the selected bond portfolio.

Updated BOND:Link models are developed monthly as of the last day of the month. The construction of a BOND:Link model relies on bond data collected as of the measurement date. Parameters provide the user the ability to control aspects of the model. The model output allows the user to see the effect of those parameters.

Information regarding quoted bond prices, yields and other bond related data is from Bloomberg Finance L.P.

Request:

Please state whether the Company has included expenses related to SFAS No. 112 in its test year claim. If so, please provide complete details and include a copy of the actuarial study.

Response:

Yes. However, in accordance with HIPAA guidelines, UGI Gas does not record or track these additional expenses separately from active employee benefit costs. For this reason, UGI Gas does not have the ability to calculate this additional post-employment benefit expense.

The Company's most recent SFAS 112 actuarial study was conducted at the end of Fiscal Year 2024. Refer to Attachment SDR-RR-43 for a copy of the report issued as a result of this study.

Dear ██████:

UGI ASC 712 VALUATION RESULTS AS OF SEPTEMBER 30, 2024

The purpose of this letter is to provide you with the estimated ASC 712 (formerly FAS 112) obligations for UGI Utilities and Penn Natural Gas (PNG) group as of September 30, 2024. Consistent with the September 30, 2023 results, the UGI Utilities results contain the obligations attributable to Central Penn Gas (CPG) participants as well.

Valuation Results

Below is a summary of the estimated ASC 712 obligations as of September 30, 2024 for UGI's short-term disability (STD) income benefit and COBRA continuation of health coverage (long-term disability income, medical and life insurance continuation are estimated by UGI and are not included with the results presented in this letter). In addition, the ASC 712 obligation for PNG is provided for the STD income benefit. Each of the obligations was developed according to the standards of ASC 712 (formerly FAS 112, 5 and 43). For comparative purposes the individual plan obligations are shown relative to September 30, 2023 results.

Please note the following regarding this year's valuation results:

Short-term Disability Income Continuation

The UGI+CPG+PNG obligation for the STD income benefit as of September 30, 2024 is \$1,628,000 using a 5.05% discount rate; this compares to \$1,798,000 as of September 30, 2023 using a 6.05% discount rate.

The liability amount represents the obligation for the STD income benefit to which employees are entitled as years of active service increase. The valuation reflects the costs associated with all future disabilities expected to occur after September 30, 2024. The rates of incidence and duration of STD claims are based on a blend of standard actuarial assumptions and actual experience received from UGI, CPG and PNG.

Per correspondence with UGI, Mountaineer Gas Company (MGC) is excluded from this analysis as it is our understanding that MGC's STD coverage has not been merged with UGI's.

COBRA Continuation of Health Coverage

This amount represents UGI's obligation for the additional medical expense anticipated from COBRA participants above the 102% of premium UGI collects from COBRA beneficiaries. The projected cost of health coverage is based on UGI's average 2024 cost of providing these benefits for COBRA participants.

Information Related to Actuarial Standard of Practice No. 56

AGEDIST

AgeDist is a spreadsheet tool that applies relative cost factors by age to average per capita costs (pre and post 65) and census weights to produce age-graded plan costs for pre- and post-65 populations. The average per capita costs and census weights are provided as inputs to the tool which is then combined with a morbidity curve to produce a set of weighted average age-related costs that equal the average. The age-graded costs are used in the actuarial valuation.

The morbidity curve was developed from a broad set of claims data aggregated by age and blended and may not reflect your specific morbidity. The model does not evaluate the average per capita costs or census weights for reasonableness or consistency.

The model(s) used for this analysis is designed specifically for these purposes, and we know of no material limitations that would prevent the model(s) from being suitable for these intended purposes.

We are not aware of any material inconsistencies among assumptions used in this work. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence. The calculation and presentation of results relies on the assumptions used and the reasonability of the assumptions selected. The output of the model(s) used in this analysis are considered reasonable based on the aggregation of assumptions used. However, a different set of results could also be considered reasonable based on a range of possible values used for each assumption.

The individuals signing or delivering this report have relied on other WTW employees and actuaries who develop, test and maintain each of the proprietary models used for this analysis and have also performed a basic review of assumptions and results to ensure that the models have been set up appropriately and coded correctly. We have not relied on any external experts to develop, review, or validate the model(s) used in this analysis.

In preparing the results presented in this report, we have relied upon information provided to us regarding plan provisions, plan participants, participant contribution amounts and/or claims data. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. The accuracy of the results presented in this report is dependent upon the accuracy and completeness of the underlying information. We are aware of no errors or omissions that would have a significant effect on the results of our calculations.

Quantify

Quantify is the WTW centrally developed, tested and maintained Global actuarial valuation system. It is used to perform valuations of clients' benefit plans. Quantify provides the ability to process data, calculate benefits and value benefit liabilities, develop results using applicable standards, and generate client reports. Quantify parameters provide significant flexibility to model populations and plan designs. Various demographic, economic and benefit related assumptions exist for users to model multiple demographic and economic situations.

Plan liabilities are calculated based on standard actuarial techniques, developing actuarially reasonable results using the population and parameters entered the calculation and presentation of liabilities in Quantify relies on the assumptions used and the reasonability of the assumptions selected. Quantify incorporates standard liability methodologies that are intended to reasonably reflect a variety of economic or demographic conditions. The model itself does not evaluate any assumptions entered for reasonableness, consistency or probability of occurrence.

Quantify is designed specifically for these purposes, and we know of no material limitations that would prevent the system from being suitable for these intended purposes. The actuaries signing this report have relied on the actuaries who develop, test and maintain this system, and have also performed a limited review of results to ensure that system parameters have been set appropriately and plan provisions coded correctly.

Actuarial Certification

UGI retained WTW to perform a valuation of its postemployment benefit plans in order to determine its postemployment benefit cost in accordance with ASC 712 (formerly FAS 112). This valuation has been conducted in accordance with generally accepted actuarial principles and practices.

The consulting actuaries are members of the Society of Actuaries and other professional actuarial organizations and meet the "Qualification Standards for Actuaries Issuing Statements of Actuarial Opinion in the United States" relating to postemployment benefit plans.

In preparing the results presented in this report, we have relied upon information provided to us regarding plan provisions, plan participants, and plan costs. We have reviewed this information for overall reasonableness and consistency, but have neither audited nor independently verified this information. The accuracy of the results presented in this report is dependent upon the accuracy and completeness of the underlying information.

The actuarial assumptions and the accounting policies and methods employed in the development of the postemployment benefit cost have been selected by the plan sponsor. WTW has evaluated the assumptions used and believes that they do not significantly conflict with what would be reasonable. ASC 712 requires that each significant assumption "individually represent the best estimate of a particular future event."

The results shown in this report are reasonable actuarial results. However, a different set of results could also be considered reasonable actuarial results, since the actuarial standards of practice describe a "best-estimate" range for each assumption, rather than a single best-estimate value. Thus, reasonable results differing from those presented in this report could have been developed by selecting different points within the best-estimate ranges for various assumptions.

The information contained in this report was prepared for the internal use of UGI and its auditors in connection with our actuarial valuation of the postemployment benefit plans. It is neither intended nor necessarily suitable for other purposes. UGI may also distribute this actuarial valuation report to the appropriate authorities who have the legal right to require UGI to provide them with this report, in which case UGI will use best efforts to notify WTW of this distribution. Further distribution to, or use by, other parties of all or part of this report is expressly prohibited without WTW's prior written consent.

Taxes Other than Income Taxes	12,885	12,680	(205)	(1.6%)
Total Operating Expenses	811,147	776,675	(34,473)	(4.4%)

Maintenance and Other Operating Expenses

	<u>Actual 2024</u>	<u>Budget 2024</u>	<u>Variance</u>	<u>% Variance</u>
Payroll and Employee Benefits	94,030	96,415	2,385	2.5%
Transportation	5,767	5,528	(240)	(4.3%)
Contracted Labor, Materials and Equipment	39,714	44,782	5,068	11.3%
Uncollectible Allowance	16,423	19,274	2,851	14.8%

Other	56,561	58,665	2,103	3.6%
	231,415	244,601	13,186	5.4%

Cost of Sales

The unfavorable variance in Cost of Sales was primarily driven by certain margin items (i.e. Off-System Sales and Capacity Release) being budgeted on a net basis in revenue but in actuals posting on a gross basis in both cost of sales and revenue.

Contracted Labor, Materials and Equipment

The favorable variance in Contracted Labor, Materials and Equipment expense was primarily driven by the Company's ability to mitigate expected contractor increases in the budget.

Uncollectible Allowance

The favorable variance in Uncollectible Allowance was primarily driven by lower than anticipated Core Market revenues primarily due to warmer than budgeted weather.
